DEVELOPER

Broadbean Technology, jobs posting, London (UK) | Jun 2011-Apr 2012

Hired as a Perl developer for the integration team. Working within a team while managing my own projects. Dedicated to the French market, providing the technical support to various stakeholders to ensure that Broadbean's products are correctly integrated with the client's infrastructure.

Main achievement(s): Creation of a set of scripts automating the workflow for the french market.

DEVELOPER & STRATEGIST (WEB & NETWORK)

PMC Milliot, E-commerce websites, Paris (France) | Sep 2010-Jun 2011

Trained developers on using and maintaining the Prestashop system (previously created and deployed by an agency). I worked with various stakeholders to develop several modules, which, allowed the company's intranet to communicate with all their online shops. The contract was completed through the creation of a new multi-site E-commerce platform (Prestashop) fully integrated with the company's intranet/websites (CRM/Custom system/CMSmadesimple/Drupal/Wordpress).

DEVELOPER

BJNET, Online gaming industry, Paris (France) | Oct 2007 - Oct 2010

I was part of a 4-person team, whilst at the same time studying for my Masters. During the first year, I mainly worked as an HTML/CSS integrator and a PHP developer. In the second year, my responsibilities included project management and further technologies (Actionscript/AJAX/JAVA). In my final year, I was responsible for the creation and maintenance of many websites in Wordpress and Drupal alongside my role in the main website of the company (Drupal 6): a high traffic website containing videos and flash games and a large amount of features like commenting, rating and favoriting of videos and games.
